

DHK Military Helmets

DHK TACTICAL HELMET

NIJ Level IIIA Protection

The DHK Tactical Helmet is a revolutionary concept in the world of combat helmets. It's light weight and compact while protecting its wearer with its highly effective design. It can be used in countless operations including paratrooper and combat maneuvers. The DHK Tactical Helmet takes advantage of the latest developments in protection against shock and impact absorption. This helmet is adapted to meet the threats that soldiers encounter during modern military operations. The light weight and an unequalled level of comfort ensures to its wearer mobility and efficiency in the scope of even very long missions.

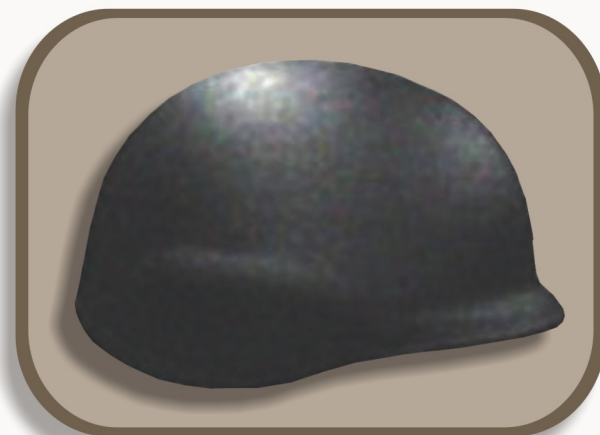

Part Number : DHK80011-TBPH-1

COMBAT BULLET PROOF HELMET (PASGT)

NIJ Level IIIA & III Protection

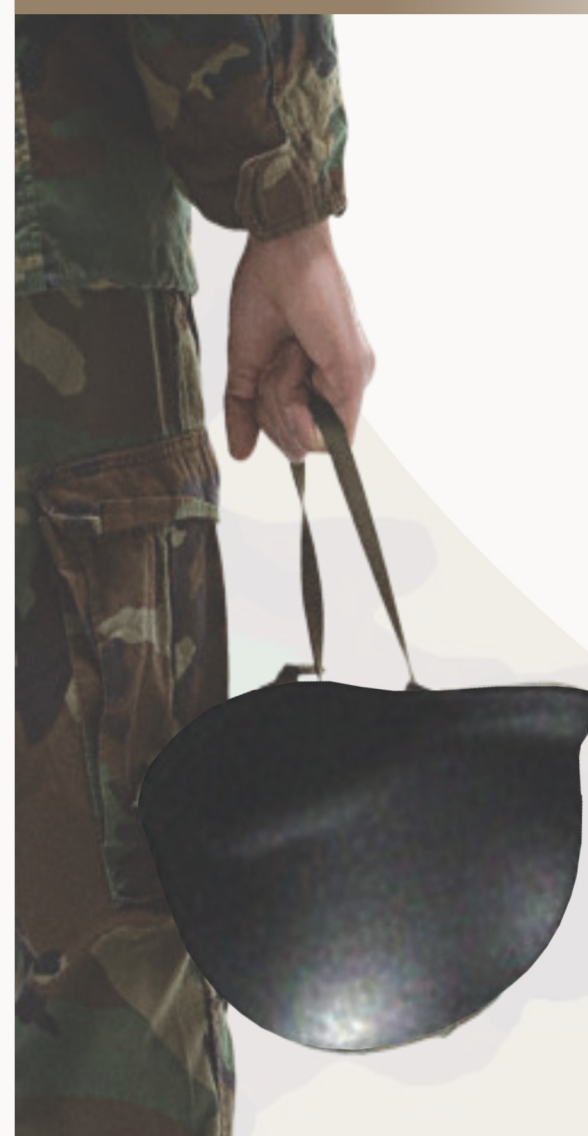

The DHK PASGT helmet is the best armor available for protection from exploding shrapnel and fragmentation. Constructed of patented materials and ergonomically designed, the helmet is light weight and has the ideal distribution of mass over the head centreline. Integrated outer shell and suspension system provides a stable, snug fit.

Part Number : DHK700192-CBPH-1
