

# DHK Stainless Steel Bottle

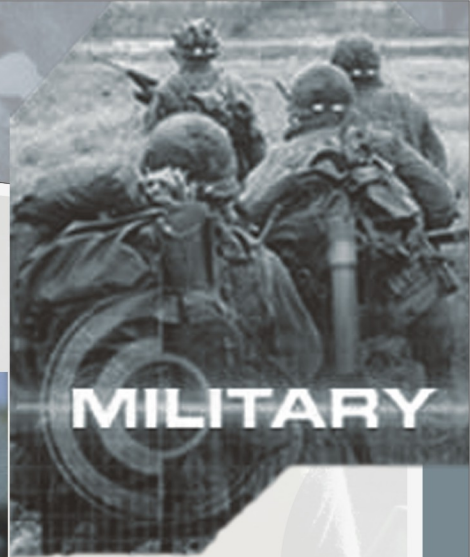

## Stainless Steel Bottle 1 Liter

The DHK Stainless Steel Military Bottle is designed with 2.25" inch wide mouth for multiple applications. The soldier has an option to heat the bottle to melt ice and/or boil water for use with MRE's. The neck is wide enough to accommodate utensils. The DHK Stainless Steel Bottle is fully compliant with FDA, NSF and other applicable standards. The DHK Stainless Steel Military Bottle can also be used as a signaling device in the event that a soldier is trapped behind enemy lines. The mirror polished surface can be used to reflect an optical beam of sunlight to rescue helicopters, allowing the soldier to maintain radio silence.

### Features:

- Material – stainless steel 304 for full compliance with FDA regulations.
- Gasket material – high temperature Nitrile (FDA & NSF standards) for 100% sealing.
- Bottle is designed and manufactured to meet or exceed DHK drawing number DHK700155
- Larger throat area 2.25"
- Larger cap.
- Capacity -1 liter.
- The Bottle can be heated on an open flame or Military vehicle's high temperature surface(s)
- Designed for thousands of exposures to extreme hot and cold temperatures.
- Will meet or exceed Military standards such as MIL-STD-810 for environmental conditions, MIL-I-45208, MIL-STD-130, MIL-STD-105 and other applicable standards.
