

DHK Tactical Rechargeable Flashlight

DHK700286-TRF-1

DHK TRF SYSTEM

DHK Tactical Rechargeable Flashlight (TRF) is a super bright flashlight system that utilizes space-age aluminum alloys and other super conducting materials. The TRF is designed for a long life with high capacity and high quality rechargeable batteries and halogen bulbs. DHK TRF system is specifically designed for military, security forces, fire department, police, and other rugged operations that demand performance and protection from water, shock and vibration, sand and dust, high and low temperature environments encountered by the combat operations. The TRF system is designed with the intent to meet or exceed MIL-STD-810 environmental military specifications.

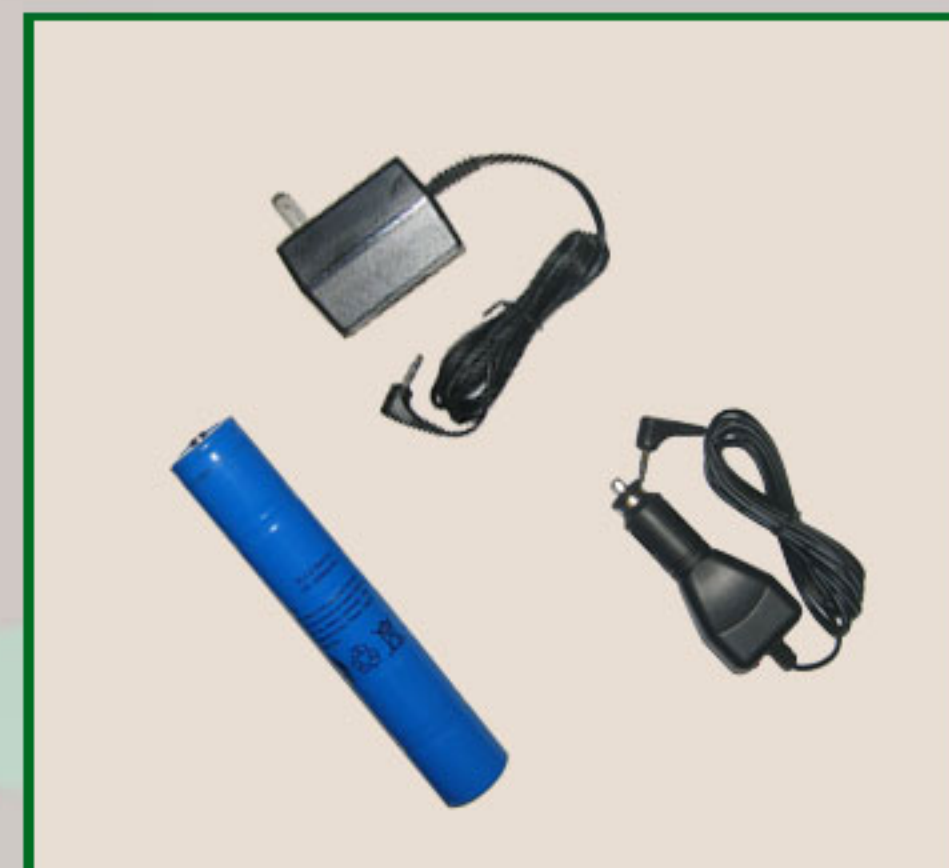

DHK TRF COMPLETE KIT

- ▶ **A High Capacity Rechargeable Battery Pack** – is designed for long life and can be charged with an automotive 12 VDC charge cord or 110–240 VAC converter provided with the system. The high output battery and charging system with universal AC and DC charging adapters makes a unique global system.
- ▶ **The Reflector System** – is designed to work together with the bulb assembly that automatically focuses when the light is turned on, therefore, eliminating the need for adjustment. The TRF system is easily adjustable for high intensity spot-to-flood. The range in total darkness is well over 1,000 feet.
- ▶ **A Spare Bulb Assembly** – is provided in the battery retaining cap.
- ▶ **All components** - such as charge connector are protected from sand, dust, water, shock and vibration, and other environmental contaminants with the use of a unique rubber-ring assembly.

The DHK Tactical Rechargeable Flashlight system is manufactured to high standards such as MIL-I-45208 and incorporates the following unique features for reliability, maintainability, user friendliness, as well as combat readiness:

- ▶ **DHK TRF System** – utilizes high quality rubber ring assembly and other gaskets to provide excellent water resistance properties.
- ▶ **DHK TRF System** – the components are precision manufactured, anodized and film coated to protect the metal from corrosion, galvanic reactions, chemicals, gases, and other corrosive environments.
- ▶ **DHK TRF system** – uses designed balanced optics and light weight components.

DHK TRF ACCESSORIES

- Accessories include:**
1. High Capacity Rechargeable Battery Pack.
 2. Belt clip
 3. 110-240VAC Charger
 4. Car charger
