DISPOSABLE Medical First Aid Kit

(Chemical, bird flu, virus, and bacterial protection)

DHK Professional and Disposable Medical Kits are designed to provide Chemical, Virus and Bacterial protection in CBRN type environment. The kits are designed to meet the standards 29 CFR for the Personal Protection Equipment (PPE), established by OSHA, FDA and other agencies. DHK Kits include the critical equipment that will protect the office personnel, First Responders, Police, Fire personnel, field personnel, and family members from specific hazards which they are likely to encounter while doing their work onsite or in any work environment. Please note the PPE is as good as the user takes necessary precaution in utilizing, maintaining and storing. The critical equipment is certified by NIOSH and other applicable agencies. We sincerely hope that no one has to face such a situation however; we must be prepared to deal with such unfortunate scenario if it ever occurs.
