

# ReFresh™

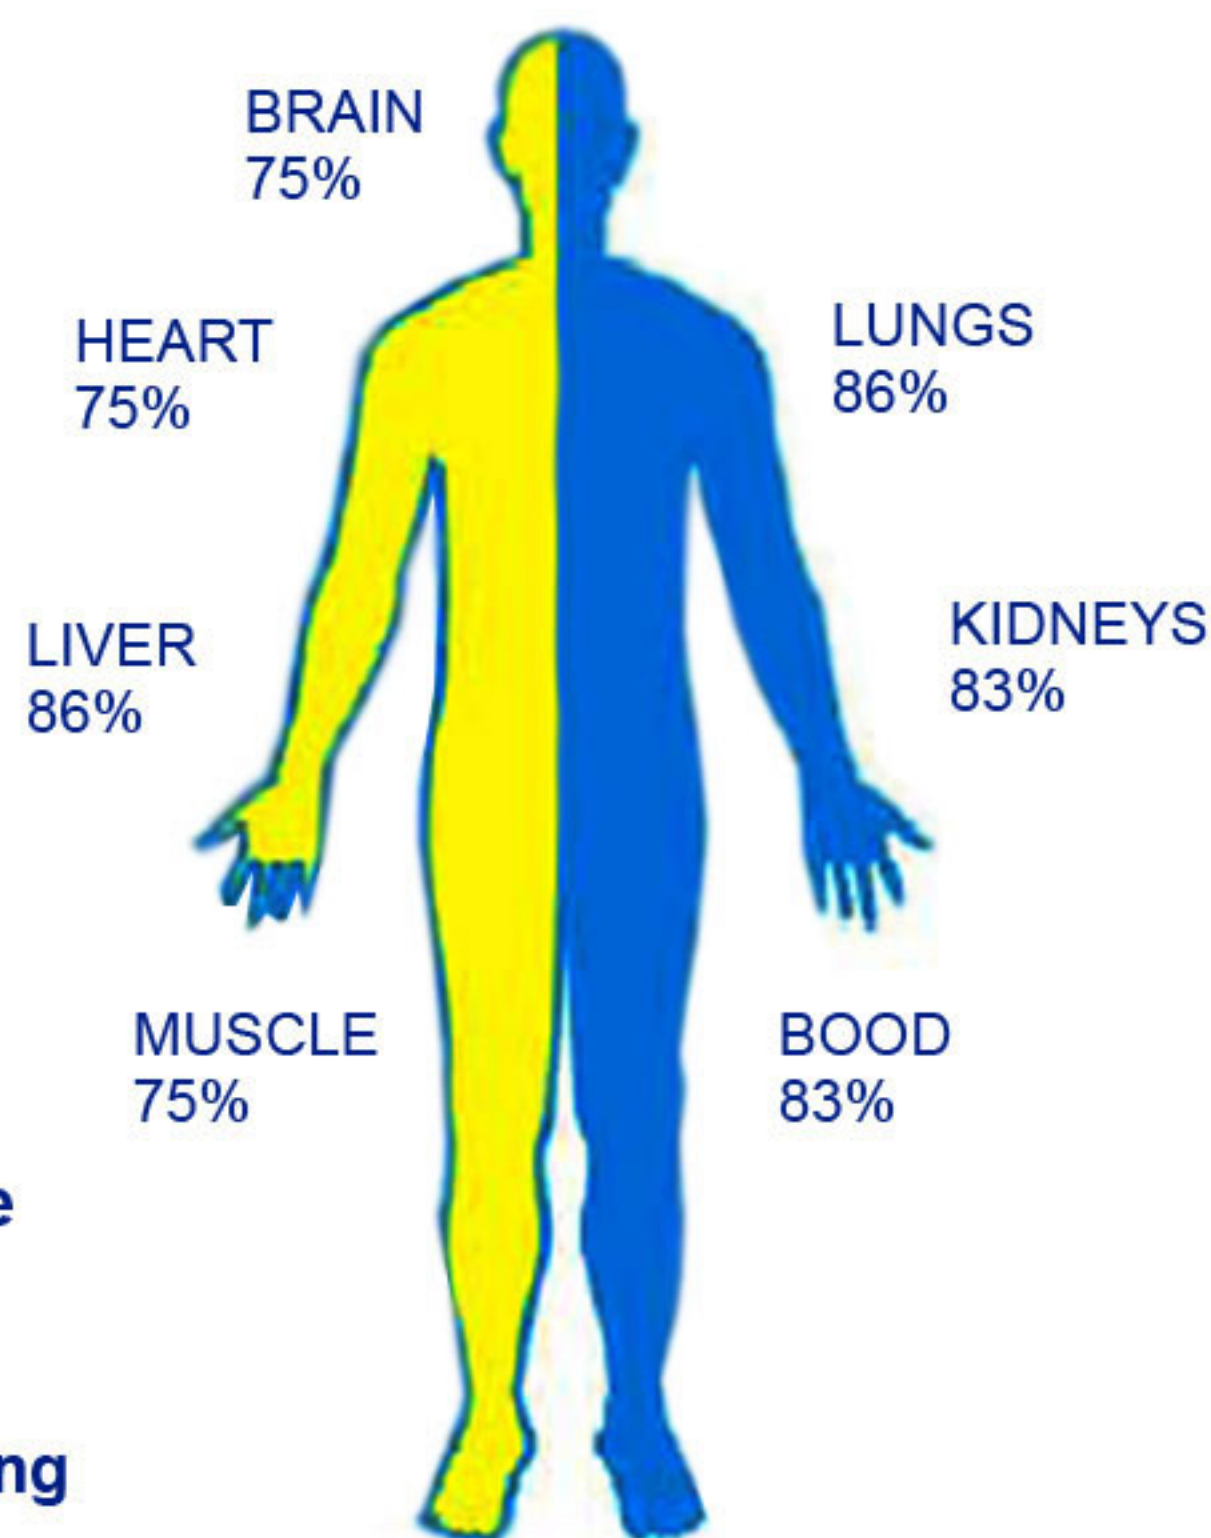

## Personal Water Filtration System Medically Safe Drinking water System Capacity – One Liter

**Refresh** is a personal water filtration system, great for everyday use, home office, camping, travel, schools, and all other daily activities. The system uses state of the art technology in its design and manufacturing processes. It is designed for simplicity in operation and is highly reliable. The filter assembly is designed utilizing aerospace technology with proprietary filter elements.

The System provides medical grade water filtration to 0.4 micron level for hundreds of cycles. In order to produce a low cost, high quality product, the components are manufactured using mass production technologies. The system meets and exceeds requirements specified in NSF, EPA, WQA & MIL-specs including Mil-I-45208, MIL-STD-810, Mil-STD-130, ISO-9002 Etc of USA.
